

Using Online Angry Customer Videos To Learn How Can I Find All The Videos In Your Free Customer Service Training Course?

Actually the best way to view all our episodes for our customer service training course is here. Below you'll see the playlist containing the videos, and it's updated automatically as we add new training sessions.

We suggest you view the videos in sequence. It makes more sense that way, since, like any training course, later sessions build upon the earlier ones. They are numbered in sequence to make that easier.
